As of the closing date of this statement, the annual percentage yield (APY) for customers enrolled in the brokerage cash sweep program is 0.01% for customers who are not subscribed to Robinhood Gold. For customers subscribed to Robinhood Gold or enrolled in a boosted rate promotion, the APY ranges from 4.00% - 4.50%. For accounts managed by RAM, the APY is 4.00%. Program banks pay interest on your swept cash, minus any fees paid to Robinhood. RAM does not receive fees related to the cash sweep program. Uninvested cash swept to the program banks is eligible for FDIC insurance up to applicable limits, subject to FDIC rules. Robinhood Financial LLC and its affiliates are not FDIC-insured banks. Deposit insurance covers the failure of an insured bank. Products other than the cash sweep program are not insured by the FDIC, are not deposits, and may lose value. Certain conditions must be satisfied for pass-through FDIC deposit insurance coverage to apply. The Securities Investor Protection Corporation has taken the position that uninvested cash swept to the program banks is not covered by the Securities Investor Protection Act.

As of the closing date of this statement, the annual percentage yield (APY) for customers enrolled in the brokerage cash sweep program is 0.01% for customers who are not subscribed to Robinhood Gold. For customers subscribed to Robinhood Gold or enrolled in a boosted rate promotion, the APY ranges from 4.00% - 4.50%. For accounts managed by RAM, the APY is 4.00%. Program banks pay interest on your swept cash, minus any fees paid to Robinhood. RAM does not receive fees related to the cash sweep program. Uninvested cash swept to the program banks is eligible for FDIC insurance up to applicable limits, subject to FDIC rules. Robinhood Financial LLC and its affiliates are not FDIC-insured banks. Deposit insurance covers the failure of an insured bank. Products other than the cash sweep program are not insured by the FDIC, are not deposits, and may lose value. Certain conditions must be satisfied for pass-through FDIC deposit insurance coverage to apply. The Securities Investor Protection Corporation has taken the position that uninvested cash swept to the program banks is not covered by the Securities Investor Protection Act.

Important Information

If this is a margin account and we maintain a special miscellaneous account for you, this is a combined statement of your general account and special miscellaneous account maintained for you under Regulation T issued by the Board of Governors of the Federal Reserve System. The permanent record of the special miscellaneous account as required by Regulation T is available for your inspection at your request.

The per annum rate of interest charged on debit balances in your account may change from time to time in accordance with fluctuations in interest rates. Interest is computed from the 1st day of the month to the last day of the month. The interest is based on the average daily balance in your account with us, and for the actual number of days based on an interest year of 360 days. When calculating margin interest, free credit balances in all accounts will be offset against any debit in the margin account and the interest will be charged on the new debit balance.

This statement includes dividend and interest amounts credited to your account on securities held for you in our name. While this statement should be retained for income tax purposes, it is not a substitute for IRS Form 1099. Amounts reported on your 1099 may be different than what is reported here. Therefore, only information on Forms 1099 should be used for tax reporting.

Information relative to regulatory trading/transaction fees and any other charges incurred in connection with equity or listed option transactions occurring during the month has previously been furnished to you in confirmation of such transactions. A summary of the information will be made available to you promptly upon request. Exercise assignment notices for option contracts are allocated among customer short positions pursuant to a manual procedure which randomly selects from amongst all customer short option positions including those contracts which are subject to exercise. All short American style option positions are liable for assignment at any time whereas European style options are assigned at expiration. A more detailed description of our random allocation procedure is available upon request.

You are to promptly advise Robinhood of any material changes concerning your investment objectives or financial situation by updating your information using the Robinhood platform or by contacting help@robinhood.com.
